

## Historical and Cumulative Results

### Viewing Individual Test Results

1. In the eOrder web form Test Chooser panel you will notice small blue arrows appearing next to tests in the Test Selection screens. These show that results are available.

2. Click on the blue arrow: the eOrder form will display results associated with the test, together with any information or advice about the results.
3. Results are included from any Healthscope laboratory, all over the country.
4. Results from manual (non-eOrders) are included.

Potassium reference interval is for serum samples. Potassium in plasma samples may be up to 0.3 mmol/L lower.  
An e-GFR result in the range 45-59 ml/min/1.73m<sup>2</sup> suggests moderately impaired renal function, stage 3a CKD. Refer www.kidney.org.au.  
Estimated GFR is calculated from the CKD-EPI equation.  
Caution in interpretation is required in non-Caucasians, the elderly, patients with extremes of body weight, oedema, rapidly changing creatinine and in pregnancy.

Click on the drop down to increase the number of results to display.

### Result History

1. Click on the View Results button in the bottom left hand corner.

2. Orders are listed on the left with the most recent at the top.
3. Orders shown in **Green** indicate that the patient has not yet presented or results are not yet available.
4. Normal results are shown in **Black**, abnormal in **Red** and a culture in progress in **Orange**.
5. Click on any Result on the left and the detail will be displayed on the right.

Random glucose is not a preferred sample for diagnosis of diabetes.

Orderable Item	Value	Units	H/L	Ref Range	Perf. Lab
Magnesium	0.40	mmol/L	L	(0.70 - 1.10)	

Orderable Item	Value	Units	H/L	Ref Range	Perf. Lab
Sodium	135	mmol/L		(135 - 145)	
Potassium	4.2	mmol/L		(3.5 - 5.2)	
Creatinine	959	umol/L	H	(60 - 110)	
eGFR	6	mL/min/1.73m <sup>2</sup>			

### Cumulative Reports

1. When a patient has had the same test repeated a number of times, it is possible to generate a cumulative report.
2. Click on the result in the left panel, then on the Cumulative Report tab.
